

Ejaz Ahmed

Computer Science

Kernel Developer

Cyber Security

Professional Statement:

My name is **Ejaz Ahmed**, currently pursuing bachelor's degree in computer science at Namal University Mianwali. I have developed skills in programming in different languages and research skills.

As a future computer scientist, I aim to become a **kernel and driver developer** in lower-level languages. I love to work at level where we have more control on hardware and to perform sophisticated tasks.

Also, as a motivated and passionate **cybersecurity analyst**, I am dedicated to safeguarding digital assets and **mitigate cyber threats**. I am committed to continuously enhancing my **skills** particularly in **Time management, programming, communication and the careful handling of confidential information**. With the passion for protecting organizational assets and staying ahead of **emerging security challenges**, I strive to contribute to a secure digital landscape through a proactive risk management and defense strategies.
